

## STRATEGY AND DELIVERY

### OVERVIEW

The implementation of the right strategy can help to change the trajectory of an organization. In an ever-evolving professional landscape however, the ability to strategize and deliver on operational objectives while also managing business as usual is increasingly complex.

EMA Advisory's Strategy and Delivery (S&D) business unit supports Australian capability through the provision of management advice, project management, project delivery, stakeholder engagement and strategic planning, enabling the successful delivery of outcomes across all sectors of Government

### MISSION

Our team deliver best practice and customised solutions, by understanding the trends, insights and competitive opportunities available to determine the right approach.

The team are PRINCE2 and MSP practitioners with extensive experience in managing projects throughout the Capability Lifecycle.

Our team is highly skilled in stakeholder engagement techniques which aim to identify potential roadblocks early in the project, and ensure any risks are mitigated and managed appropriately as requirements evolve.

Led by Mr. Simon Scarlett (Principal Consultant), the S&D team are focused on delivering results. Our broad scope of experience and collaborative organisational structure enables us to quickly and efficiently identify opportunities for improvement and to drive efficiency outcomes via agreed action items.

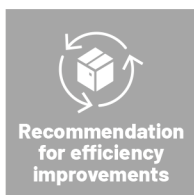

### BUSINESS HEALTH CHECKS

A core element of the S&D approach is providing Business Health Checks. The Business Health Check is a detailed review of organisational processes, specifically aimed at understanding the pain points of our clients and implementing plans to improve processes and drive efficiency.

Business Health Checks are tailored to meet the needs of our clients and have been implemented and executed within both Government and Private Industry. We take a project management approach to this service, ensuring successful implementation and long-term sustainability. Additionally, our team are security cleared at both the Baseline and NV1 levels.
